

How about opposing bill Hr 4026.I think the traffic and weather channels should stay on xm.That's what sets satellite radio apart from FM.I listen to the traffic and weather stations quiet often.Xm satellite radio also has different choices of music you won't find on FM.They have beautiful music,bluegrass,standards and other unique music choices you won't find on FM.I am paying a month for xm.I don't think the Nab should be able to say what I can and can't listen to.I got XM because FM had 5 top 40 stations and over 5 country,no other format in my area.Xm has variety with no commercials.
